

IN CYBER SCAM DETECTOR

AI-Powered Cyber Safety Platform for India

PROJECT OVERVIEW

Cyber Sentinel is an AI-powered web application designed to protect Indian citizens from various cyber threats. Users can paste suspicious messages and instantly check if they're scams.

PROBLEM STATEMENT

Every day in India:

- 📱 People lose money through fake UPI requests
- 🎓 Students fall for fake internships
- 💰 Citizens receive scam SMS messages
- 🌐 Phishing websites steal credentials
- 🗝️ Most people don't know how to identify these attacks

FEATURES

Feature	Description
Bank Fraud Detector	Detects fake bank messages
Scholarship Scam Detector	Identifies fake scholarship offers
OTP Scam Detector	Catches OTP-related scams
Prize Scam Detector	Detects lottery/prize scams
Risk Score	Shows 0-100% risk level

Feature	Description
Pattern Detection	Recognizes scam patterns
Copy Results	Share results with others
Report Feature	Opens cybercrime.gov.in

HOW IT WORKS

text

1. User pastes a suspicious message
2. AI checks for scam keywords
3. Pattern detection identifies scams
4. Risk score calculated (0-100%)
5. Result displayed with reasons
6. User can copy or report
